

Top screenshot showing the DVWA login page and the Burp Suite HTTP history. The login page shows the DVWA logo and a login form with fields for Username (admin) and Password (*****). The Burp Suite interface shows the HTTP history with a POST request to /DVWA/login.php. The request body is visible in the raw view, showing the login attempt with username=admin and password=password.

Middle screenshot showing the DVWA login page and the Burp Suite HTTP history. The login page shows the DVWA logo and a login form with fields for Username (cane) and Password (****). The Burp Suite interface shows the HTTP history with a POST request to /DVWA/login.php. The request body is visible in the raw view, showing the login attempt with username=cane and password=password.

Bottom screenshot showing the DVWA login page and the Burp Suite HTTP history. The login page shows the DVWA logo and a login form with fields for Username (cane) and Password (****). The Burp Suite interface shows the HTTP history with a POST request to /DVWA/login.php. The response body is visible in the raw view, showing the login attempt with username=cane and password=password. The response status is 200 OK, and the response body contains HTML content indicating a successful login.
